THE INTERNATIONAL BESTSELLER: “ Beautifully told. ” —CNN • “ A remarkable story...worth retelling and celebrating. ” —USA Today • “ Oh, it ’ s a good one! ” —Fox News A “ beautiful story of a brotherhood between enemies ” emerges from the horrors of World War II in this New York Times bestseller by the author of Devotion, now a Major Motion Picture. December, 1943: A badly damaged American bomber struggles to fly over wartime Germany. At the controls is twenty-one-year-old Second Lieutenant Charlie Brown. Half his crew lay wounded or dead on this, their first mission. Suddenly, a Messerschmitt fighter pulls up on the bomber ’ s tail. The pilot is German ace Franz Stigler—and he can destroy the young American crew with the squeeze of a trigger... What happened next would defy imagination and later be called “ the most incredible encounter between enemies in World War II. ” The U.S. 8th Air Force would later classify what happened between them as “ top secret. ” It was an act that Franz could never mention for fear of facing a firing squad. It was the encounter that would haunt both Charlie and Franz for forty years until, as old men, they would search the world for each other, a last mission that could change their lives forever.

On April 10th, 2003, the 1st Battalion, 5th Marine Regiment, faced with the task of seizing the presidential palace in downtown Baghdad, ran headlong into what Lieutenant Colonel Oliver North called, "the worst day of fighting for U.S. Marines." Hiding in buildings and mosques, wearing civilian clothes, and spread out for over a mile, Saddam Hussein's militants rained down bullets and rocket propelled grenades on the 1st Battalion. But when the smoke of the eight-hour battle cleared, only one Marine had lost his life. Some said the 1st Battalion was incredibly lucky. But in the hearts and minds of the Marines who were there, there was no question. God had brought them miraculously through that battle. As the 1st Battalion's chaplain, Lieutenant Carey Cash had the unique privilege of seeing firsthand, from the beginning of the war to the end, how God miraculously delivered, and even transformed, the lives of the men of the 1st Battalion. Their regiment, the most highly decorated regiment in the history of the Marines, was the first ground force to cross the border into Iraq, the first to see one of their own killed in battle, and they were the unit to fight what most believe to have been the decisive battle of the war-April 10th in downtown Baghdad. Through it all, Carey Cash says, the presence of God was undeniable. Cash even had the privilege of baptizing fifty-seven new Christians-Marines and Sailors-during the war in Iraq. The men of the 1st Battalion came to discover what King David had discovered long ago--that God's presence could be richly experienced even in the presence of enemies. Here is the amazing story of their experience.

This text is a companion volume to *Transmission Electron Microscopy: A Textbook for Materials Science* by Williams and Carter. The aim is to extend the discussion of certain topics that are either rapidly changing at this time or that would benefit from more detailed discussion than space allowed in the primary text. World-renowned researchers have contributed chapters in their area of expertise, and the editors have carefully prepared these chapters to provide a uniform tone and treatment for this exciting material. The book features an unparalleled collection of color figures showcasing the quality and variety of chemical data that can be obtained from today's instruments, as well as key pitfalls to avoid. As with the previous TEM text, each chapter contains two sets of questions, one for self assessment and a second more suitable for homework assignments. Throughout the book, the style follows that of Williams & Carter even when the subject matter becomes challenging—the aim is always to make the topic understandable by first-year graduate students and others who are working in the field of Materials Science Topics covered include sources, in-situ experiments, electron diffraction, Digital Micrograph, waves and holography, focal-series reconstruction and direct methods, STEM and tomography, energy-filtered TEM (EFTEM) imaging, and spectrum imaging. The range and depth of material makes this companion volume essential reading for the budding microscopist and a key reference for practicing researchers using these and related techniques.

From leadership expert, former Navy SEAL, "American Grit" feature player, and author of *Worth Dying For: A Navy SEAL's Call to a Nation*, Rorke Denver, the bestselling account of how he helped create the U.S. Navy SEALs of today. Rorke Denver trains the men who become Navy SEALs--the most creative problem solvers on the modern battlefield, ideal warriors for the kinds of wars America is fighting now. With his years of action-packed mission experience and a top training role, Lieutenant Commander Denver understands exactly how tomorrow's soldiers are recruited, sculpted, motivated, and deployed. Now, Denver takes you inside his personal story and the fascinating, demanding SEAL training program he now oversees. He recounts his experience evolving from a young SEAL hopeful pushing his way through Hell Week, into a warrior engaging in dangerous stealth missions across the globe, and finally into a lieutenant commander directing the indoctrination, requalification programs, and the "Hero or Zero" missions his SEALs undertake. From his own SEAL training and missions overseas, Denver details how the SEALs' creative operations became front and center in America's War on Terror-and how they are altering warfare everywhere. In fourteen years as a SEAL officer, Rorke Denver tangled with drug lords in Latin America, stood up to violent mobs in Liberia, and battled terrorists in Iraq and Afghanistan. Leading 200 commando missions, he earned the Bronze Star with V for valor. He has also served as flag aide to the admiral in charge and spent the past four years as executive officer of the Navy Special Warfare Center's Advanced Training Command in Coronado, California, directing all phases of the basic

and advanced training that prepare men for war in SEAL teams. He recently starred in the film *Act of Valor*. He is married and has two daughters. Ellis Henican is a columnist at *Newsday* and an on-air commentator at the Fox News Channel. He has written two recent New York Times bestsellers, *Home Team* with New Orleans Saints coach Sean Payton and *In the Blink of an Eye* with NASCAR legend Michael Waltrip. With all the SEALs' recent successes, we have been getting a level of acclaim we're not used to. But something important has been missing in this warm burst of publicity . Correcting that is my mission here. "My own SEAL dream was launched by a book. My hope is that this one teaches lessons that go far beyond the battlefield, inspiring a fresh generation of warriors to carry on that dream." -- Lieutenant Commander Rorke Denver

Back Cover Copy: "Am I About to Die?" On December 5, 2012, American medical doctor Dilip Joseph and two colleagues are driving back to Kabul, Afghanistan, after serving villagers that morning at a rural clinic. Suddenly a man waving an AK-47 blocks their path. More armed men jump out of hiding. For Dilip, it is the beginning of a nightmare—he's being kidnapped by the Taliban. Dilip and his friends endure a nine-hour march into the mountains, gruesome images of torture and death, and repeated threats of execution. Four days later Dilip is freed in a daring and deadly rescue that claims the life of a SEAL Team Six operator. Yet this is more than a story of desperation, survival, and loss. It is also a tale of surprising connection, compassion, and inspiration. As Dilip begins to view the Taliban not as monsters but as men, both he and his captors are challenged to reexamine everything that matters: courage, sacrifice, hope, and faith. Flap Copy: With a jerk of his rifle, the leader points up the mountain on the left. There is no path. I look higher and see more armed men at the top of a hill about two hundred feet above us. Apprehension surges up in me like black oil from a well. These aren't ordinary robbers. This is too systematic. I've been kidnapped by the Taliban. As we walk, I fear the worst—that when we reach the top, they will shoot us. God, however this is going to end, please don't let them torture me to death. Let it be one shot and done. It is amazing how quickly everything we take for granted can be ripped away. In the space of a few minutes, I have lost all control of my life. All I can do is take a step, draw a breath, and hope I will be given the chance for another. Step. Breathe. Hope. Kidnapped by the Taliban is a story of both terror and triumph. After reading this dramatic and inspiring account, you will never view Afghanistan or the Taliban in the same way again.

Scholars of the Hebrew Bible have in the last decade begun to question the historical accuracy of the Israelite sojourn in Egypt, as described in the book of Exodus. The reason for the rejection of the exodus tradition is said to be the lack of historical and archaeological evidence in Egypt. Those advancing these claims, however, are not specialists in the study of Egyptian history, culture, and archaeology. In this pioneering book, James Hoffmeier examines the most current Egyptological evidence and argues that it supports the biblical record concerning Israel in Egypt.
