## Publishers' Directory Brookings Institution Press

Fresh Ink tells how Robert Decherd and Burl Osborne transformed a flawed paper with a checkered history into the leading newspaper in the southwest, winning seven Pulitzer Prizes along the way, one of them for graphics—the only newspaper to ever do so. The focus is on a week in the life of The Dallas Morning News, the death a month later of the competing Dallas Times Herald, and how the News has conducted itself since.

## Know Your Price IFES

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and

exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

This principal source for company identification is indexed by Standard Industrial Classification Code, geographical location, and by executive and directors' names.

## *The California Dream-- Just Add Water* Heyday

The deliberate devaluation of Blacks and their communities has had very real, far-

reaching, and negative economic and social effects. An enduring white supremacist myth claims brutal conditions in Black communities are mainly the result of Black people's collective choices and moral failings. "That's just how they are" or "there's really no excuse": we've all heard those not so subtle digs. But there is nothing wrong with Black people that ending racism can't solve. We haven't known how much the country will gain by properly valuing homes and businesses, family structures, voters, and school districts in Black neighborhoods. And we need to know. Noted educator, journalist, and scholar Andre Perry takes readers on a tour of six Black-majority cities whose assets and strengths are undervalued. Perry begins in his hometown of Wilksburg, a small city east of Pittsburgh that, unlike its much larger neighbor, is struggling and failing to attract new jobs and industry. Bringing his own personal story of growing up in Black-majority Wilksburg, Perry also spotlights five others where he has deep connections: Detroit, Birmingham, New Orleans, Atlanta, and Washington, D.C. He provides an intimate look at the assets that should be of greater value to residents—and that can be if they demand it. Perry provides a new means of determining the value of Black communities. Rejecting policies shaped by flawed perspectives of the past and present, it gives fresh insights on the historical effects of racism and provides a new value paradigm to limit them in the future. *Know Your Price* demonstrates the worth of Black people's intrinsic personal strengths, real property, and traditional institutions. These assets are a means of empowerment and, as Perry argues in this provocative and very personal book, are what we need to know and understand to build Black prosperity.

Journal of the Senate, Legislature of the State of California Agora Publishing  
Multi-volume major reference work bringing together histories of companies that are a leading influence in a particular industry or geographic location. For students, job candidates, business executives, historians and investors.

## *Cumulative List of Organizations*

---

*Described in Section 170 (c) of the Internal Revenue Code of 1986*

This book describes the history of the initiative process and the major issues that have arisen during its increasing use in recent years. By elucidating the problems that have arisen and their possible solutions, the authors seek both to inform the debate about the wisdom of the initiative and to offer suggestions for improvement to jurisdictions that choose to use the process. With the aid of more than 40 charts and tables, the authors compare the major features of the initiative in the American jurisdictions that have adopted the procedure-24 states and the District of Columbia. They draw particularly on the experience in California, the most frequent U.S. user of the initiative and a major battleground in the development of ideas about the process. The book also discusses the use of the initiative in other countries, particularly Switzerland, where the process originated and the only other major country in the world that makes extensive use of the initiative today.
